Description

DcctDrv related misnamed functions and unused SSDN Device IDs should be fixed or removed.

History

#1 - 05/23/2016 09:32 AM - Roger Tokarek

IntensityAccessor::readDcctIntensityAvg() does not read an intensity average.
ACNETInterface DEVICE_ID_DCCT = 0x0005 is not used.
DcctDrv commented code should be removed.
DcctDrv constructor for example has many named but possibly unused register references, eg. "intensityRegisters". Fix or remove.
