I made tag and tried c2 builds but get this error:

I will proceed with e17 builds.

#2 - 08/20/2018 07:09 AM - David Adams

- Status changed from New to Closed

Slf e17 builds are installed for this release. There is are no c2 builds.

If desired, we can fix the above compile problems and make a new tag for c2.

#3 - 08/20/2018 08:12 AM - Leigh Whitehead

This was due to some unused member variables which gcc doesn't seem to care about. Fixed in develop.
