Subject: Lost raw minos files

Hi Art,
It appears that stkendc03a host has once again had it OS re-installed and
pool partitions re-formatted.
(tomorrow it will be sorted out as to why this happened again)

At least the following 3 files are lost :

/pnfs/fs/usr/minos/far_dcs_data/2014-10/F141007_000006.mdcs.root
/pnfs/fs/usr/minos/neardet_data/2014-10/N00059725_0007.mdaq.root
/pnfs/fs/usr/minos/neardet_data/2014-10/N00059725_0001.mdaq.root

Could minos re-copy to dCacehe them ASAP.

Thanks,
Dmitry
