inst-bpm - Bug #9081

Milestone # 9017 (Accepted): State Machine subsystem

Detach from TCLK events when StateMachine is destroyed

06/09/2015 03:25 PM - John Diamond

Status:	Closed	**Start date:**	06/04/2015
Priority:	Normal	**Due date:**	
Assignee:	John Diamond	**% Done:**	100%
Category:	bpmd	**Estimated time:**	0.00 hour
Target version:		**Spent time:**	2.00 hours

Description

We need to detach our TCLK event listeners when StateMachine goes out of scope.

Subtasks:

Feature # 9042: Implement detach-all TCLK for BTime	**Closed**
