DUNE																										
dunetpc																										
Convert sigmoid (high low pass) filter (...)																										
Remove obsolete detsim and dataprep (...)																										
Make signal shaping service available (...)																										
Update DUNE geometry wiki page																										
Reorganize DuneInterface																										
Create module to identify primary neutrino (...)																										
protoDUNE geometry has tiny gap between (...)																										
Change FD CNN to use TF																										
Test the code to use space points in (...)																										
Track stitching in PMA																										
prodgenie_atmnu																										
Update noise simulation for ProtoDUNE (...)																										
ps returns truncated command line in (...)																										
MCC11 MARLEY summed charge discrepancies (...)																										
Add time of flight information to the (...)																										
Calibration Tree Version 2.0																										
Address various issues in protodune-sp (...)																										
Channel mapping in the ProtoDUNE DP (...)																										
CRP sorting for ProtoDUNE DP geometry (...)																										
Changes in dataprep data model																										
Understand channel-to-channel response (...)																										
Configure dataprep for Iceberg run 5																										
Error in data production when updating (...)																										

dunetpc	
Convert sigmoid (high low pass) filter (...)	**New**
Remove obsolete detsim and dataprep (...)	**Assigned**
Make signal shaping service available (...)	**Assigned**
Update DUNE geometry wiki page	**New**
Reorganize DuneInterface	**Assigned**
Create module to identify primary neutrino (...)	**New**
protoDUNE geometry has tiny gap between (...)	**New**
Change FD CNN to use TF	**New**
Test the code to use space points in (...)	**Assigned**
Track stitching in PMA	**New**
prodgenie_atmnu	**Work in progress**
Update noise simulation for ProtoDUNE (...)	**Feedback**
ps returns truncated command line in (...)	**Feedback**
MCC11 MARLEY summed charge discrepancies (...)	**New**
Add time of flight information to the (...)	**New**
Calibration Tree Version 2.0	**Assigned**
Address various issues in protodune-sp (...)	**New**
Channel mapping in the ProtoDUNE DP (...)	**Assigned**
CRP sorting for ProtoDUNE DP geometry (...)	**New**
Changes in dataprep data model	**Work in progress**
Understand channel-to-channel response (...)	**New**
Configure dataprep for Iceberg run 5	**Work in progress**
Error in data production when updating (...)	**New**
