

Fermi File Transfer Service - Feature #10047

Feature # 10046 (Feedback): Read Adler32 checksums directly from dCache

Compare enstore and Adler32 checksums

09/03/2015 11:55 PM - Robert Illingworth

Status:	Resolved	Start date:	09/03/2015
Priority:	Normal	Due date:

Target version:	v6_0_0	Spent time:	0.00 hour
Description			
The Adler32 checksums can be compared with the combination of enstore checksum and file size. So if there's no Adler32 value to compare against directly we should try to use the enstore value instead.			

History

#1 - 10/20/2017 09:49 AM - Robert Illingworth

- Target version changed from 818 to v6_0_0

#2 - 10/20/2017 09:50 AM - Robert Illingworth

- Status changed from Assigned to Resolved

- Assignee changed from Dennis Box to Robert Illingworth

- % Done changed from 0 to 100
