

ANNIE1-mechanical-design - Task #10201

Determine how structure and top will be lowered in ANNIE Hall

09/21/2015 10:28 AM - Carrie McGivern

Status:	New	Start date:	10/16/2015
Priority:	Normal	Due date:	12/18/2015
Assignee:	Carrie McGivern	% Done:	100%
Category:		Estimated time:	2.00 hours
Target version:		Spent time:	0.00 hour
Description			
<p>Once the tank is in place, we need to determine the safest way to crane lower the structure/top with out damaging the PMTs attached to the structure. Given safety issues, there will not be space for a person to physically guide the structure into place from inside the Hall and the crane operator won't be able to see where he is placing the frame.</p> <p>Can this be done without the PMTs attached?</p>			

History

#1 - 12/06/2015 10:46 AM - Matthew Wetstein

- Due date changed from 10/30/2015 to 12/18/2015
