

Recycler BPM - Task #10437

Milestone # 10429 (Accepted): New P1 Line BPMs

Configure ibbmp1 for new BPMs

10/09/2015 12:21 PM - John Diamond

Status:	Closed	Start date:	10/09/2015
Priority:	Normal	Due date:	
Assignee:	John Diamond	% Done:	100%
Category:		Estimated time:	1.00 hour
Target version:		Spent time:	0.50 hour
Description			
A new digitizer was added to ibbmp1. We will need to make the necessary changes to the startup script to initialize it. Also, create BPM objects for the new BPMs.

- % Done changed from 0 to 100

Startup scripts for rtbpm nodes were not being tracked as a part of the rbpm CVS project. I copied rtbpmprerstartup, rtbpmprerstartup and ibbmp1startup into my rbpm project and added them to the RTBPM_SCRIPTS section in the Makefile. I then added lines to configure the new digitizer and initialize the new BPMs. Finally, I pushed the new startup script and tested successfully.
