Description

Per "jobsub_q -h" the --disk option takes a <num><units> combination.

```
$ jobsub_submit --disk=asdf file://./myscript.sh
```

should fail, but it happily submits a job.

```
$ which jobsub_submit
```

```
/cvmfs/fermilab.opensciencegrid.org/products/common/prd/jobsub_client/v1_1_6/NULL/jobsub_submit
```
