Description

The current location was causing glibc errors.

History

#1 - 10/30/2015 09:09 AM - Kurt Biery

- Status changed from New to Resolved

Eric fixed this by moving the start of the data collection thread from the constructor to the start and resume methods.

#2 - 10/30/2015 09:18 AM - Kurt Biery

- Subject changed from Change where we start the data collection thread to avoid race conditions to Change where we start the data collection thread in TriggerdFragmentGenerator to avoid race conditions

#3 - 05/23/2016 10:32 AM - Eric Flumerfelt

- Status changed from Resolved to Closed
