

ROC-DynamicDisplays - Feature #11882

Feature # 10497 (New): Pull updates to clients

Have each Java program check for updates

03/03/2016 03:33 PM - Elliott McCrory

Status:	Work in progress	Start date:	03/03/2016
Priority:	Normal	Due date:	
Assignee:	Elliott McCrory	% Done:	80%
Category:	Java Code	Estimated time:	0.00 hour
Target version:			
Description			
While it is running. Maybe do a 'phone home' every 24 hours or so			

History

#1 - 05/15/2018 12:42 PM - Elliott McCrory

- Status changed from New to Work in progress
- % Done changed from 0 to 50

This has been implemented in version 3.0.4 of the software. Testing is underway.

#2 - 10/02/2018 02:16 PM - Elliott McCrory

- % Done changed from 50 to 80

Every node checks for the update, but there is a bug in this script that requires that the startup script be run again to actually catch the update.

The problem is that the script for the OLD version continues to run, so any changes in that script in the NEW version (e.g., to run a different class, say, DisplayAsConnectionToSelenium) is not done. The fix is to notice if the software has been updated and then restart the script entirely. This is in v4.1.5, but needs to be tested.
