file list comments

04/13/2011 12:39 AM - Mark Messier

Status:	Closed	Start date:	04/13/2011
Priority:	Normal	Due date:	09/30/2013
Assignee:	Kyle Knoepfel	% Done:	100%
Category:	Application	Estimated time:	2.00 hours
Target version:	1.15.02	Spent time:	4.00 hours
Scope:	Internal	SSI Package:	art
Experiment:	NOvA		

Description

It would be nice if the file format used for file lists through the -S command line option supported a comment syntax. I suggest a leading '#':

```
/data/file1.root
/data/file2.root
#
# Skip file 3 because I don't like the number 3
#
# /data/file3.root
/data/file4.root
```

Ack -- my suggested syntax got markup-ified away. I intended

```
/data/file1.root
/data/file2.root
#
# Skip file3.root since I don't like the number 3
#
# /data/file3.root
/data/file4.root
```
