

JobSub - Bug #11975

--long can't be added with a constraint??

03/16/2016 09:49 AM - Joe Boyd

Description

jobsub_q -G uboone --long

shows me classads as advertised.

```
jobsub_q -G uboone --long --constraint='jobstatus 2 && owner "uboonepro" && isUndefined("MATCH_EXP_JOB_Site") FALSE && MATCH_EXP_JOB_Site "Omaha"
```

does not show me classads for uboonepro jobs running at Omaha. Just the standard queue style like. Doesn't --long just add a "-l" to the condor_q command so people could get long listing of a subset of jobs.
