- File chpatch added
- Status changed from Assigned to Work in progress
- % Done changed from 0 to 80

So other than tagging it as a "test" campaign, this is mostly done now.

Basically the test button on launch_template_edit.html just kicks you over to the launch jobs routine with a test_launch_template=launch_id and no campaign_id; the launch code now stubs out the lookups for campaign and campaign_definition info, and just runs the launch template connection and prints a message (although maybe it should do a printenv and a which jobsub or something? not sure)

The one for Job Types (campaign_definitions) is a bit more complicated; we make a _test_xxx campaign for your job kick you into the editor for it so you can set overrides, etc. and then when you save it it does a launch. Probably I should change the Save button text there, too.

#5 - 11/07/2017 03:13 PM - Marc Mengel

- % Done changed from 80 to 100

Declaring victory...

#6 - 01/26/2018 05:17 PM - Anna Mazzacane

- Status changed from Work in progress to Resolved

#7 - 02/02/2018 08:54 PM - Anna Mazzacane

- Status changed from Resolved to Closed
