Saba has been working on this and she is the owner of the issue.

#2 - 10/04/2016 10:41 AM - Katherine Lato

- Related to Support #13025: Track the work on associations. added

#3 - 03/30/2018 12:43 PM - Saba Sehrish

- Status changed from Assigned to Resolved

Following utilities were implemented using the range v3 library, and are available in canvas/Utilities.

1. for_each_group(/* association collection */, /* a callable */);
2. for_each_group_with_left(/* association collection */, /* a callable */);

Some utilities based on the above are in lardata/lardata/Utilities.
