Description			
<p>Since we have re-worked quite a few screens, our help pages in the Wiki are largely out of date.</p> <p>We need to go through each page of the GUI, and try every help "(?)" link, and make sure there is a page there that says something hopefully useful.</p> <p>If there is a page that needs major work, make updating it a sub-task of this ticket, and we can assign it separately. If it just needs a word or two changed, just fix it.</p>
