

ubpm - Task #13288

Milestone # 13283 (New): Establish Test Stand

Create git repository

07/19/2016 11:43 AM - John Diamond

Status:	New	Start date:	07/19/2016
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Make a clone of the rrbpm repository and call it ubpm.			

History

#1 - 07/19/2016 11:49 AM - John Diamond

One idea for a tree structure:

- master - official, stable branch
- R201611A - branch for the development of the release 201611A (to be deployed at the end of the shutdown)
- nnnnn-description - topic branches for ticket number #nnnnn
