First Occurred:	
Description	
I get the following error after ruining the lar -c anatre_swnd.fcl "rec.root"	
The fcl and the input files I used are located in the following directory: sbnd/app/users/kmatias/SBND_Data/troubleshooting/	

History

#1 - 09/26/2016 02:43 PM - Gianluca Petrillo

- Status changed from New to Feedback

Is the problem still occurring?

If so, could you also write which is the error?

#2 - 11/01/2017 04:05 PM - Gianluca Petrillo

- Status changed from Feedback to Closed

Closing because likely outdated. Please reopen if the problem persists.
