**Description**

We have received several requests for at least parts of the functionality of the TriggeredFragmentGenerator. It should be integrated into CommandableFragmentGenerator in a way that does not change the existing or default functionality, but allows users to select from a "menu" of enhancements, such as separate data-taking or monitoring threads.

#### History

**#1 - 08/25/2016 04:12 PM - Eric Flumerfelt**

- Status changed from Assigned to Closed
- Target version changed from 576 to v1\_13\_01

**#2 - 08/25/2016 04:13 PM - Eric Flumerfelt**

This, combined with the triggered example code in `artdaq_demo`, resulted in significant testing of the new CommandableFragmentGenerator code.
