

Supernova Analysis - Bug #13893

Study houghtracker inefficiencies

09/20/2016 03:29 PM - Andrey Sheshukov

Status:	New	Start date:	09/20/2016
Priority:	Normal	Due date:	
Assignee:	Andrey Sheshukov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Study the cases when obvious tracks are present, but not reconstructed by DDT houghtracker.			
Plan:			
<ol style="list-style-type: none">1. Get SNEWS data and perform tracking.2. Remove all hits associated with tracks&noise3. Save all remaining hits into another file4. Perform tracking on these tracks with additional debug output
