

## Elog - Bug #14223

### Home button doesn't do anything

<b>Description</b>			
Clicking the home button simply seems to refresh the page. Is this the desired behavior? In the operational Elog it clears all filters.

I think I will keep the home button the way it is and rather make the title the clear all filters button. This way admins navigating the elog dont loose their filters.

The elog title now does what you want.
