I made it so tables don't overflow out of entry. The overflow is hidden. This may not be ideal but I don't think I know a better solution.

#2 - 11/03/2016 01:06 PM - Beau Harrison

What about width: 100%?

#3 - 11/03/2016 01:10 PM - Kyle Hazelwood

I allow the user to set the table width themselves so it is displayed the way they see fit. The table width is actually in the text of the entry. I guess people just need to be aware that wide tables may not display properly.

#4 - 11/03/2016 01:15 PM - Beau Harrison

Ok

#5 - 11/22/2016 07:10 PM - Kyle Hazelwood

- Status changed from Feedback to Closed
