Category:		Estimated time:	0.00 hour
Target version:	v2_00_00		
Experiment:	-		

Description

The initial implementation of the RequestMessage class (formerly TriggerMessage) only contained room for one event's data. For CommandableFragmentGenerators in Window request mode, however, it may be desirable to recover missed request messages. This behavior is undefined for Ignored, Buffer, and Single mode CFGs.

Appropriate changes have been made to RequestMessage, CommandableFragmentGenerator and EventStore.

History

#1 - 01/11/2017 08:51 AM - Eric Flumerfelt

- Status changed from Resolved to Closed
- Target version changed from 576 to v2_00_00
