| Target version: | v1_2_0_RC | Spent time: | 1.00 hour |
| Experiment: | - | Stakeholders: | |
| Description | | | |
| <p>Currently in the main page of the CI web app, in the "checkout" tooltip it is showed the list of "modules" and "revision" hash. It will be more user friendly to show the the "git description" instead of the "git revision"</p> <p>The "git description" will be a string like "LARSOFT_SUITE_v06_18_00-2-g0710d7a". It will be provided to the CI DB using the field "gitdescription". If this information is not available, keep using "gitrevision" as fallback value.</p> <p>Then add the "git description" also in the "checkout" view.</p> <p>With this new info, in the "checkout" view, we will have: module name; git description; git revision</p> <p>NOTE: the new field "gitdescription" needs to be mapped to the previous filed "cutversion" that is not used.</p> | | | |

History

#1 - 04/19/2017 02:37 PM - Vladimir Podstavkov

- Status changed from Assigned to Work in progress
- % Done changed from 0 to 90
- Estimated time set to 1.00 h

#2 - 04/20/2017 10:25 AM - Vladimir Podstavkov

- Status changed from Work in progress to Resolved
- % Done changed from 90 to 100

#3 - 04/24/2017 07:29 PM - Vito Di Benedetto

- Status changed from Resolved to Closed
- Target version set to v1_2_0_RC
