

VME Intensity Monitor - Feature #16050

Build support into Cycle Devices that can support the two groups of 8 for g-2 transfers

04/03/2017 01:58 PM - John Diamond

Status:	Assigned	Start date:	04/03/2017

Description			
R:T703E9 needs to record R:TOR703 for each g-2 transfer with the first \$9A transfer going to index 0 and the second \$9A transfer going to index 8. Figure out a way that we can support this via Cycle Devices.
