

NOvA Break Point Fitter - Task #16293

Proton reconstruction

04/21/2017 08:21 PM - Mark Messier

Status:	New	Start date:	04/21/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Erica has turned up something weird going on with the proton reconstruction. It requires a very heavy scaling to get to the MC proton momentum. This should be investigated.
