| Feature was implemented over a year ago [#11398](#) but new configuration knob is not documented any where | | | | |

## History

**#1 - 05/02/2017 02:52 PM - Parag Mhashilkar**

*- Target version set to v3_2_19*

**#2 - 05/02/2017 02:58 PM - Parag Mhashilkar**

*- Subject changed from Document reserve in running_glideins_per_entry to Document min in running_glideins_per_entry*

*- Description updated*

**#3 - 05/18/2017 11:02 AM - Marco Mascheroni**

*- Status changed from New to Feedback*

*- Assignee changed from Marco Mascheroni to Parag Mhashilkar*

There is a line in

```
doc/frontend/configuration.html
```

.

namely:

```
        The <b>min</b> attribute of <b>running_glideins_per_entry</b> is the minimum number of glidens that a
re kept running
        for each entry associated to the group (even if there are no jobs idle)
```

Should I expand on this?

Also, did you mention this was not working? I am willing to investigate on it, not sure who I should get in contact for details though.

**#4 - 05/25/2017 08:45 PM - Parag Mhashilkar**

*- Status changed from Feedback to Resolved*

*- Assignee changed from Parag Mhashilkar to Marco Mascheroni*

Somehow I did not spot it when I read through the docs.
