Description				
All of our repositories include a LICENSE file. This file should be included with our installed products as well.				

History

#1 - 05/04/2017 08:43 PM - Lynn Garren

- Status changed from New to Resolved

- Assignee set to Lynn Garren

This is implemented in cetbuildtools v5_08_00. An install_license macro has been added and is called automatically by cet_cmake_env. If LICENSE and/or README are found, they are installed in $PRODUCT_DIR. If neither is found, nothing is done.

#2 - 05/08/2017 02:01 PM - Lynn Garren

- Status changed from Resolved to Closed

- % Done changed from 0 to 100

The head of the critic suite set of products now uses cetbuildtools v5_08_00.
