

NOvA DAQ Cluster - Far Det - Bug #16566

Loadshed should check for "stale" lockfile

05/16/2017 04:20 PM - Eric Flumerfelt

Status:	New	Start date:	05/16/2017
Priority:	Normal	Due date:	
Assignee:	Eric Flumerfelt	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
In check_for_existing_loadshed in loadshed_function.sh, there is a trap ... EXIT for removing the loadshed.lock lockfile. However, this can suppress the whole system if not removed, so the loadshed should also check the mtime on the lockfile to make sure it is from the current iteration of the loadshed script.
