Description			
Hello Lynn,			
MicroBooNE would like to request a new patch release of larsoft, v06_26_01_03.			
This patch release should be identical to larsoft v06_26_01_02, and should include updates to larreco that are on branch v06_26_01_01_branch.			
Here is a summary of updates to larreco.			
<ol style="list-style-type: none">1. Improvements to Kalman filter (Giuseppe's Kalman filter).2. TrajCluster crash fixes and updates.3. Added capabilities in HitFilterAlg.			
Once larsoft v06_26_01_03 is available, we plan an making a new patch release of uboonocode (v06_26_01_05). Updates for uboonocode are (mostly) available already on branch v06_26_01_br.			
Thanks,			
Herb
