

Synergia2 - Bug #17051

libFF rfcavities do not anharmonic (displaced frequency) phase

06/28/2017 10:01 AM - Eric Stern

Status:	New	Start date:	06/28/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
The displaced frequency phase was a feature added to allow multiple RF cavities with frequencies not a multiple of the main frequency.
