

FIFE - Task #17173

Revisit Pegasus after GPGGrid refactor

07/13/2017 02:17 PM - Kenneth Herner

Status:	Rejected	Start date:	07/13/2017

Target version:	FIFE Roadmap for FY18	Spent time:	0.00 hour
Description			
<p>We evaluated Pegasus earlier in 2017 to see how well it would interact with the existing FIFE tools, namely Jobsub. We decided that since Pegasus was tightly coupled to HTCondor commands (i.e. it was not easy to make it do "jobsub_submit" as opposed to "condor_submit") and it was somewhat more difficult to make work with glideins, that we should not expend effort now to modify jobsub to interface with it. After the GPGGrid refactor is complete in the fall, and glideins will not run FIFE jobs, it may be easier to make everything interface. We can look at things again after the refactor is complete and we know how FIFE users will be submitting jobs in the long term.</p>
