

SAM Web services - Feature #17270

Feature # 17269 (New): Use subrun ranges instead of individual subruns in metadata

Allow subrun ranges in metadata input and output

07/25/2017 02:58 PM - Robert Illingworth

Status:	New	Start date:	07/25/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
It should be possible to specify a range of subruns in the metadata as something like [123456, '1-99', 'runtime'].			
This could be implemented without database changes by expanding and contracting the lists, which would gain some benefits.
