

dunetpc - Feature #17701

Ensure dunetpc develop has the correct version in product_deps after release build

09/13/2017 08:29 AM - David Adams

Status:	Closed	Start date:	09/13/2017
Priority:	Normal	Due date:	
Assignee:	David Adams	% Done:	0%

Target version:			
Description			
If dunetpc develop is update during a release build (i.e. after checkout and before commit), then version update made in the release tag will not be propagated to develop. Tingjun has requested the following be run after a commit to avoid this problem:			
<pre>git checkout develop #this may not be necessarge git pull git merge v06_49_00 git push</pre>			

History

#1 - 09/13/2017 08:32 AM - David Adams

- Status changed from Assigned to Closed

I have modified dune-larrel make the requested change immediately after the commit. The first line is omitted and the current version is used.

#2 - 09/13/2017 08:32 AM - David Adams

The new dune-larrel tag is v01.01.00.
