<b>Description</b>			
<p>Serial port on the MVME-8100 is a mini db-9 female. Serial port on my computer is a regular db-9 male. A null modem is necessary for connecting to the MVME8100 console, these are typically DB-9 female-to-female. We should have three of the following:</p> <ul style="list-style-type: none"><li>3x Mini DB-9 female to DB-9 female cable</li><li>3x DB-9 gender changer</li><li>3x DB-9 null modem</li></ul>
