History

#1 - 11/29/2017 11:48 AM - Christopher Green

- Subject changed from A demonstration of the ability to have an empty product which has only dependencies. to Demonstrate the ability to have an empty product which has only dependencies.

#2 - 11/29/2017 01:19 PM - Christopher Green

- Subject changed from Demonstrate the ability to have an empty product which has only dependencies. to Build an empty product which has only dependencies.

#3 - 11/29/2017 01:21 PM - Christopher Green

- Subject changed from Build an empty product which has only dependencies. to Build an empty product that has only dependencies.

#4 - 12/06/2017 10:45 AM - Christopher Green

- Precedes Milestone #18408: Set up multiple products for use by referring directly only to an umbrella product. added

#5 - 12/06/2017 10:45 AM - Christopher Green

- Follows Milestone #18406: Configure the current environment to be able to use a product. added

#6 - 12/14/2017 10:57 AM - Christopher Green

- Follows deleted (Milestone #18406: Configure the current environment to be able to use a product.)

#7 - 12/14/2017 10:59 AM - Christopher Green

Risk items:

- Spack currently requires that a recipe "download something" from an URL.

Possibility to have a bare module file, but there issues of "building" and distribution in that case.

#8 - 08/27/2018 10:31 AM - Christopher Green

- Status changed from New to Accepted
