mrb - Bug #18624

"dependent product is not required" not handled

12/26/2017 02:02 PM - Ron Rechenmacher

Status:	Accepted		**Start date:**	12/26/2017
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour

Description

products marked with "-" in the ups/product_deps table where: # a "-" means the dependent product is not required by the parent and will not be setup
causes
ERROR: no match to qualifier list for canvas_root_io

This happens as a result of the "mrbsetenv" mrb command after the latest artdaq-core was
added to mrb srcs.
