

Off-the-Shelf DAQ - Feature #19074

Edit Configuration through UDP messages

02/21/2018 02:51 PM - Ryan Rivera

Status:	New	Start date:	02/21/2018
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	FY18 - Quarter 2 Release	Spent time:	0.00 hour
Description			
The CCD collaboration has an example use case where a user is on a network too slow for the full web gui, but still would like to control configuration and state machine. If the configuration could be changed over UDP then command line tools or scripts could be made to change certain fields that a user cares about.
