

ProtoDUNE Data Management - Feature #19165

NP02 EOS and Castor locations

02/28/2018 09:14 AM - Steven Timm

Status:	New	Start date:	02/28/2018
Priority:	Normal	Due date:	
Assignee:	Robert Illingworth	% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>Elisabetta would like to have the Castor structure mirror the directory structure that she has for EOS. There are 2 parts for this.. one is that we actually need to declare the EOS location in SAM which we are not doing now (NP02 wants a structure based on run number much as wa105 was done) and the other is that we would have to figure out how to replicate that structure in castor, which will take some FTS configuration to sort out.</p>			

History

#1 - 04/30/2018 08:10 PM - Steven Timm

- Tracker changed from Task to Feature
- Assignee changed from Steven Timm to Robert Illingworth

Have emailed Robert about this one.

#2 - 09/12/2018 09:13 PM - Steven Timm

- % Done changed from 0 to 50

This feature is in v6_2_0_beta3
I have not tested it yet.
