

LArSoft - Milestone #19328

Pixel-detectors within LArSoft.

03/08/2018 10:42 AM - Katherine Lato

Status:	Assigned	Start date:	03/08/2018
Priority:	Normal	Due date:	
Assignee:	Erica Snider	% Done:	0%
Category:	Reconstruction	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Experiment:	-		

Description

Need agreement on the data representation with the pixel community which we were hoping to get at a 3D reconstruction workshop in early 2018. Since that hasn't been scheduled, to move ahead, we propose using the Space Point Associated Charge in the LArSoft repository. https://nusoft.fnal.gov/larsoft/doxsvn/html/group__LArSoftProxyChargedSpacePoint.html There may be additional requirements, and LArSoft is willing to consider them as they arise. We'd like to agree on the information that needs to be carried around. It may not matter if we agree on the truth part.
