**Description**

MicroBooNE requests a build of gallery (to be distributed via scisoft) against canvas v1\_05\_02, and otherwise ups-compatible with larsoft v06\_26\_01\_10 (e10, etc.).

Based on the existing versions, this version would be intermediate between gallery v1\_03\_08 and v1\_03\_09.

The larsoft v06\_26\_01\_10 distribution includes larsoftobj v1\_11\_00\_05 and gallery v1\_03\_13. You can either setup larsoftobj or gallery. Please let us know if you have any problems.

I suppose it's counterintuitive, but the associated gallery releases for each art release are listed on the [About Qualifiers page](#).
