<b>Category:</b>		<b>Estimated time:</b>	6.00 hours
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
[Kurt] trying to get run_demo.sh to wait until the system is ready for online monitor apps before starting them. o This is mostly done			

#### History

##### #1 - 03/18/2018 09:34 PM - Kurt Biery

- Status changed from New to Resolved

I believe that I made the necessary changes to artdaq-demo/tools/run\_demo.sh on 15-Mar and committed them to the develop branch in the artdaq-demo repo.

I'd say that this Issue is "resolved" at this point, and once new releases of artdaq and the artdaq-demo are cut, I'll verify that the change performs as expected, and we can close this Issue.

##### #2 - 03/20/2018 10:08 AM - Kurt Biery

I've just committed an additional change to run\_demo.sh. On slow computers, I noticed that DAQInterface might not be fully started by the time that we start checking for its status, and that can cause confusion about which port it is using. This latest commit works around that issue.
