Build Environment - Bug #19487

Need to restrict building dependency files

03/26/2018 10:37 AM - Richard Neswold

Status:	New		**Start date:**	03/26/2018
Priority:	Low		**Due date:**	
Assignee:	Richard Neswold		**% Done:**	0%
Category:	frontend.mk		**Estimated time:**	0.00 hour
Target version:	v2.9			

Description

frontend.mk automatically builds .d files for all .cpp and .c files in the project. If some modules are valid for a subset of targets, we still build their .d file for every target. This results in compiler warnings for missing header files. Although frontend.mk ultimately builds the project correctly, it would be nice to get rid of these warnings.
