Description			
OSG is changing:			
<ul style="list-style-type: none">• OSG CAs will not provide or renew certificates anymore after May: factories/frontends may change DNs• The factories hosted at IU (prod/ITB) will go away on 5/23, UCSD will install an ITB factory. There will be only one production factory: We'll have to update the default configuration shipped with GWMS and the configurations used in our setups and the DN/addresses referred in the documentation

- Target version changed from v3_4_0 to v3_4_1

#3 - 06/27/2018 01:34 PM - Lorena Lobato Pardavila

What I got from Marco Mascheroni:

the new DN is : DC=org/DC=open-science-grid/O=Open Science Grid/OU=Services/CN=gfactory-1.t2.ucsd.edu and the hostname is gfactory-1.t2.ucsd.edu

This ticket will be held until we have the new factory is effective.

Marco and me agreed to assign this ticket and [#19744](#) to him. Once he has the new hostname and DN, he'll update the info to both tickets and then assign them to me to update the documentation and packaging.

The new DN is:

```
[1026] gfactory@gfactory-2 ~$ openssl x509 -in /etc/grid-security/hostcert.pem -noout -subject  
subject= /DC=org/DC=incommon/C=US/ST=WI/L=Madison/O=University of Wisconsin-Madison/OU=OCIS/CN=gfactory-2.opensciencegrid.org
```

- Has duplicate Support #19744: Change the DN of the factories in the default Frontend configuration added

#10 - 06/19/2019 04:40 PM - Marco Mambelli

From 19744:

There is a template for the default Frontend configuration.

This includes the DNs of the GOC and UCSD Factory.

As soon as those DNs change the default configuration should change as well.

Check also in the OSG svn used to build the RPMs. It will need changes as well.

#11 - 06/19/2019 04:48 PM - Marco Mambelli

I changed in the OSG svn repositories (production+upcoming) the references to the factory : gfactory-1.t2.ucsd.edu.

new hostname: gfactory-2.opensciencegrid.org

new DN: /DC=org/DC=incommon/C=US/ST=WI/L=Madison/O=University of Wisconsin-Madison/OU=OCIS/CN=gfactory-2.opensciencegrid.org

There are references also to glidein.grid.iu.edu. Should these just be removed or replaced w/ something else?

I saw the same references also in build/packaging/rpm/frontend.xml
