

GlideinWMS - Feature #20237

Design a logo for GlideinWMS

06/27/2018 06:44 PM - Marco Mambelli

Status:	New	Start date:	06/27/2018
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	v3_7_4	Spent time:	0.00 hour
Stakeholders:			
Description			
Would be useful to have reference material for conferences (other people mentioning GlideinWMS): - a logo - a reference paper that could be cited			

History

#1 - 08/29/2018 10:20 AM - Marco Mambelli

- Target version changed from v3_4_1 to v3_5

#2 - 09/11/2018 03:38 PM - Marco Mambelli

- Target version changed from v3_5 to v3_5_x

#3 - 09/21/2019 09:54 PM - Leonardo Lai

I've stumbled upon this ticket while looking for a logo to add to my presentation.

In case you didn't know, there are online markets selling good-quality logos for as little as \$5-25.

I won't include advertising links here; they are very easy to spot with google. May be worth a try.

#4 - 10/04/2019 05:13 PM - Marco Mambelli

- Target version changed from v3_5_x to v3_6_x

#5 - 07/22/2020 09:05 AM - Marco Mambelli

- File gwms_logo1.jpeg added

- File gwms_logo2.jpeg added

- File gwms_logo3.png added

Some logo ideas, geometric monograms and image:

1. GWMS letters (out of order), should be horizontal
2. GWMS letters in order and color areas, should be horizontal
3. Wolkload manager idea: GWMS brings work/jobs to computers/machines and machines where work is needed, almost like a smily face

About GlideinWMS:

- GlideinWMS
- GWMS
- The purpose of the GlideinWMS is to provide a simple way to access the Grid resources. GlideinWMS is a Glidein Based WMS (Workload Management System) that works on top of HTCondor. Glideins are like placeholders, a mechanism by which one or more remote resources temporarily join a local HTCondor pool. The HTCondor system is used for scheduling and job control.
