History

#1 - 07/19/2018 09:45 PM - John Diamond

- Status changed from New to Work in progress
- Assignee set to John Diamond
- % Done changed from 0 to 30

Implemented a device adapter class for the IOTA timing module.
Right now the BTime is hard-coded as the only TSG device class. We'll need to make this a setting in bpmd.conf.

#2 - 07/20/2018 09:33 AM - John Diamond

- % Done changed from 30 to 50

The TSG adapter is now being loaded according to the timingSys.driver setting in bpmd.conf.
