

artdaq - Feature #20422

Work with protoDUNE RunControl developers to get archival configuration information back into the art/ROOT file

07/23/2018 09:28 PM - Kurt Biery

Status:	Closed	Start date:	07/23/2018
Priority:	High	Due date:	
Assignee:	John Freeman	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	artdaq v3_03_00	Co-Assignees:	
Experiment:	-		
Description			
We should also restore this functionality to DAQInterface, for times when we are running without the JCOP RunControl.			
The add_config_archive_entry XMLRPC command is already included in the artdaq code to support this.			

History

#1 - 07/25/2018 01:57 PM - Ron Rechenmacher

- Assignee set to John Freeman

#2 - 08/01/2018 01:41 PM - Kurt Biery

- Status changed from New to Work in progress

#3 - 08/01/2018 01:42 PM - Kurt Biery

We can test the whole wad at protoDUNE when we next get real electronics.

#4 - 09/27/2018 10:08 AM - Eric Flumerfelt

- Status changed from Work in progress to Closed

- Target version set to artdaq v3_03_00
