Target version:		Co-Assignees:	
Experiment:	-		
Description			
Marco Roda (Trigger FragmentGenerator developer) requested this as part of rolling out the TriggerFragGen.			
I sounds like Wes has done the bulk of the work, compiling this third-party package with the appropriate gcc, etc. to match our current software environment on protoDUNE (e15:s64).			
I'll provide the UPS adornments.			

History

#1 - 07/24/2018 12:42 PM - Kurt Biery

Created jsoncpp v1_8_0 -q e15 for SLF7 and installed it in /nfs/sw/artdaq/products/.

I used the ~np04daq/.biery/jsoncpp_work area to assemble the UPS product.

#2 - 07/24/2018 12:47 PM - Kurt Biery
