Description			
LArSoft is now supporting e17 builds, but we do not yet have an e17 build of tensorflow. The build may require an updated tensorflow. We might, however, want to verify that people are using tensorflow.

I can confirm that we are using Tensorflow for the DUNE CVN work. If we can suggest a version, then v1.8 would be the best for us (as opposed to the current v1.3) to keep us up-to-date with the version we are using to train the network. I don't know if this will build with C++17 or not.

#3 - 08/08/2018 10:36 AM - Lynn Garren

Sorry, we have an older release which has just been built successfully as of yesterday.

Hi Lynn, which is the version that you have got working?

#7 - 08/08/2018 11:06 AM - Lynn Garren

v1_3_0d - I hope.
