

## ANNIE - Task #20572

### Create tape backed storage area for production reco files

08/09/2018 09:57 AM - Steven Gardiner

<b>Status:</b>	New	<b>Start date:</b>	08/09/2018
<b>Priority:</b>	Normal	<b>Due date:</b>	08/16/2018
<b>Assignee:</b>	Steven Gardiner	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
A large number of processed Phase I data files are currently stored in `/pnfs/annie/scratch/anniepro/toolanalysis`. They should be moved to a tape backed area for long-term storage.			

#### History

##### #1 - 08/09/2018 10:28 AM - Steven Gardiner

I created the folder /pnfs/annie/reco/ with the same ownership and permissions as the persistent and scratch folders.

##### #2 - 08/09/2018 10:48 AM - Arthur Kreymer

I have added several people to the .k5login of anniepro  
etiras, gardiner, mmalek, moflaher.

##### #3 - 08/09/2018 11:11 AM - Steven Gardiner

Subfolders for the processed runs have now been created under /pnfs/annie/reco/anniepro. I've started a script to copy over the files worth preserving from /pnfs/annie/scratch/anniepro/toolanalysis. The ToolAnalysis outputs will be renamed to follow the format RecoDataRXXXSYpZ.ana, where XXX, Y, and Z are the run, subrun, and part numbers, respectively.
